

Assembly Coordinator Report

Spring Assembly 2021

Total Number of Registrants: 171

Number of voting GRs Registered: 106

Number of Area Districts Represented: 22 of 25

Challenges:

- Organizing and preparing to run an online format meeting. Had to work through challenges like how to hold votes, training participants, hosts presenters etc.
- Slightly less registrations than Spring Assembly (171 v. 194 in Fall of 2020)

Successes:

- Electronic registrations and virtual meeting format continue to provide thousands in savings versus in person meetings.
- A whole additional committee was created that dealt with the virtual nature of this assembly and helped to train ~11 people on use of WebEx prior to event.
- People who may not otherwise be able to attend such as newer group members, those at a distance, or those interested in future service work were able to attend. We continued to have a strong showing of 34 interested parties participate up from 8 at Fall 2019 Assembly (last in-person Assembly).
