

## **VA Area District Representative Report**

**District Name and Number: Loudoun, District 10**

**DR Name and email: Mary Foster, mary57foster@gmail.com**

Things are going well in general for the district. Most meetings continue to be on WebEx or Zoom. Most of the online meetings have steady attendance and good participation. There are one or two groups where all or part of the group meet in person. Some are starting to work on ideas about what moving back to in person meetings will look like and how to make hybrid meetings happen. The Alateen meetings continue with very low or no attendance. We did get one more Alateen sponsor who had been trained before the pandemic to complete all the procedures so we have sponsors for when the in-person meetings resume.

The District recently put together an online survey that went out to all the members of the groups about future Workshops. We asked if people would like a workshop, what format they would like, if and when they would be likely to attend, and what topics they would be interested in. We will be going over the results at our District meeting later this month and hopefully have some good ideas to move forward with offering a workshop.

The Outreach group stays strong although there have been less possibilities for outreach because of the constraints of the pandemic. They group has a lot of good ideas and are committed to moving ahead.
