# Encouraging Service Script (Virtual)

## What benefit have you experienced you would share regarding:

### Learning to take risks

Learning to share, especially leading. Watching others take risk in their recovery

### Increased Self-Esteem:

We gain a feeling of usefulness Helps us work steps traditions concepts . We are around positive energy. Helps to develop a relationship with myself and improves patience and creativity. Service is my investment in me.

### Lessons in Detachment:

Service gives me self esteem and a knowing that we were of value. Growing a sense of self so we could detach.

### Lessons in Acceptance:

Due to Covid we had to go online and give up control and accept a new reality.

Principles above personalities and accept the people/group using traditions. Realizing other people can step up and take care of things. Following the concepts and traditions remembering we have a greater common purpose.

### Letting go of Perfectionism

"You can't break Al-anon" (Stacey) It's okay to ask for help even in service. Make sure service is life giving, not back breaking. Helps our group see it's okay to be human. We don't do anything alone.
